Your Skills and Experience

- Quick thinking and ability to solve issues and problems
- Overall programming experience of 1+ years
- Extensive Python experience including knowledge of various Python frameworks including:

    - Django (version 1.4+)
    - Django Templating Framework
    - Django REST framework
    - pytest is a plus
- MySQL
- Knowledge of unit testing methodologies

Python Django up to 150...

lifecycle in a large enterprise environment is a very good advantage

- Independent, self-managed and motivated
- Excellent communication and interpersonal skills
- Should be able to understand or easy to learn algorithms and data structure (Quicksort, Tree, Heap, Stack, Graph...)

Why You'll Love Working Here

- A successful qualified candidate will work with YouthDev team, develop and scale current business. We are using outsourcing and solution to make revenue and reinvest into our team ideas to break the world.
- Interface with other team to incorporate their innovations and vice versa; Conduct design and code reviews; Analyze and improve efficiency, scalability, and stability of various system resources.
- We are looking for not only a person who is a super IT developer but also a good business mindset who will be a very successful business man in the not too long distance future that don't want to have only a fixed salary every month in your whole life.
- Remember, working at YouthDev means that you are developing products and roadmap for yourself not the company.
